

GP Chronicles

Volume 1

To our dear GP partners,

Greetings! It is with a deep sense of gratitude to our God that we now can present to you with pride, all the developments that we have successfully accomplished at Greener Pastures.

If you recall, we started the construction of the spine road year 2012. We have now completed the 15-meter main road with a 1-meter landscaped sidewalk, swale-designed storm drainage and concrete curbs & gutters. It is now popularly known as our International Boulevard. This main road will lead you to the individually- themed-subdivisions.

As you come and visit us, you will also be impressed by the long stretch of Asian-inspired gates surrounding and assuring the safety and security of our future homes and gardens at Jade Residences. Take note of the Meralco power lines already strategically placed as well as the fresh cool water flowing generously from our faucets. True to our commitment to be a green community at G.P we have the advantage of a naturally abundant supply of water to take care of our plants and if the need arise we can also utilize and benefit from the 20,000 gallon storage tank installed and ready to serve our whole community.

Some great news for all who considered GP property as an investment... Congrats! You made a good deal! The San Miguel Skyway team was awarded by the government to take charge of the South Luzon Expressway (SLEX) construction and they recently visited us to already identify and prepare the areas located at the back portion of our G.P. community so hang on... because your properties' value will definitely double up in no time at all!

Meanwhile, while waiting for the commercial buildings to pop up along the SLEX, you should check on the newly divided commercial spaces being located near Our Lady of Guadalupe Parish Church. The prime areas are now being leased out at very affordable rental rates and sold to our GP entrepreneurs who seek to engage in some businesses but still would like to stay close to their homes. Hurry because it is on a first come, first serve basis!

The latest additional facility to serve you for your important occasion such as weddings, baptismal is the GP Events Place. It is located at the Quezon Lifestyle Plaza. Soon you will be pleasantly surprised to find a gourmet restaurant and a destination hotel joining us to provide you all the services for your convenience.

Meanwhile, for those among you who missed the fun and learning activities held at our Greener Pastures community, we are happy to update you so you may still catch on...

Dec. 12, 2015- **Christmas- Mardigras and "We are Family" Dance Concert**
